Abstracts

Abstracts. 1988;16:73-92

Acquired immunodeficiency syndrome

AIDS, attitudes, and infection control (Andre). 1988;16:272-3 (Practice forum)

Infection control in correctional facilities: a new challenge (Chisolm). 1988;16:107-13

Interaction of man and microbe: implications of the AIDS epidemic for hospital epidemiology (Wenzel). 1988;16:214-20 (Special article)

Universal precautions (Valenti). 1988;16:231-4 (AIDS: problem solving in infection control)

Universal precautions: the data base emerges (Valenti). 1988;16:39-40 (Editorial)

Aged

Survey of nursing personnel attitudes toward infections and their control in the elderly (LeClair et al). 1988;16:159-66

AIDS; see Acquired immunodeficiency syndrome

AIDS: problem solving in infection control

Universal precautions (Valenti). 1988;16:231-4

Antibiotic resistance; see Drug resistance, microbial

Antibiotics

Nosocomial enterococcal infections: association with the use of third-generation cephalosporin antibiotics (Magnussen and Cave). 1988;16:241-5

Antibody enzyme techniques; see Immunoenzyme techniques

Antisepsis

Comparative antibacterial efficacy of a 2-minute surgical scrub with chlorhexidine gluconate, povidone-iodine, and chloroxynol sponge-brushes (Aly and Maibach). 1988;16:173-7

Comparative effectiveness of chlorhexidine, povidone-iodine, and hexachlorophene on the bacteria of the perineum and groin of pregnant women (Vorherr et al). 1988;16:178-81 (Brief report)

Germicidal test methods (Bowab and Oleson). 1988;16:182 (Letter)

Guidelines for use of topical antimicrobial agents (Larson). 1988;16:254-66 (APIC guidelines for infection control practice)

APIC guidelines for infection control practice

Guidelines for use of topical antimicrobial agents (Larson). 1988;16:254-66

Asepsis

Surgical gowns and drapes as aseptic barriers (Belkin). 1988;16:14-8

Association for Practitioners in Infection Control

Change by choice: practitioners to professionals (Berg). 1988;16:221-4 (Special article)

Attitude of health personnel

AIDS, attitudes, and infection control (Andre). 1988;16:272-3 (Practice forum)

Survey of nursing personnel attitudes toward infections and their control in the elderly (LeClair et al). 1988;16:159-66

B

Bacitracin

Attempts to eradicate methicillin-resistant *Staphylococcus aureus* colonization with the use of trimethoprim-sulfamethoxazole, rifampin, and bacitracin (Roccaforte et al). 1988;16:141-6

Bacteria, growth

Bacterial colonization and phlebitis-associated risk with transparent polyurethane film for peripheral intravenous dressings (Hoffmann et al). 1988;16:101-6

Restriction of bacterial growth under commercial catheter dressings (Aly et al). 1988;16:95-100

Bacteriological techniques

Use and abuse of blood cultures: program to limit use (Gross et al). 1988;16:114-7

Bandages

Bacterial colonization and phlebitis-associated risk with transparent polyurethane film for peripheral intravenous dressings (Hoffmann et al). 1988;16:101-6

Restriction of bacterial growth under commercial catheter dressings (Aly et al). 1988;16:95-100

*February, pp. 1-38; April, pp. 39-94; June, pp. 95-140; August, pp. 141-184; October, pp. 185-234; December, pp. 235-292.

Books

Book reviews. 1988;16:38

Brain abscess

CDC definitions for nosocomial infections, 1988 (Garner et al). 1988;16:128-40 (Special article)

Brief reports

Brief reports. 1988;16:26-33, 66-71, 118-27, 178-81, 250-3

Bronchiolitis

CDC definitions for nosocomial infections, 1988 (Garner et al). 1988;16:128-40 (Special article)

Bronchitis

CDC definitions for nosocomial infections, 1988 (Garner et al). 1988;16:128-40 (Special article)

C

Catheterization, peripheral

Bacterial colonization and phlebitis-associated risk with transparent polyurethane film for peripheral intravenous dressings (Hoffmann et al). 1988;16:101-6

Restriction of bacterial growth under commercial catheter dressings (Aly et al). 1988;16:95-100

Catheters, indwelling

Infection related to intravascular pressure monitoring: effects of flush and tubing changes (Covey et al). 1988;16:206-13

Cephalosporins

Nosocomial enterococcal infections: association with use of third-generation cephalosporin antibiotics (Magnussen and Cave). 1988;16:241-5

Certification

Validating the certification process for infection control practice (Larson et al). 1988;16:198-205

Chickenpox

Varicella exposure in a neonatal intensive care unit: case report and control measures (Stover et al). 1988;16:167-72

Child day care centers

Day care centers and infection control: a marriage of necessity (Harkavy). 1988;16:1-2 (Editorial)

Infection control in day-care centers: present and future needs (Lopez et al). 1988;16:26-9 (Brief report)

Chlorhexidine

Comparative antibacterial efficacy of a 2-minute surgical scrub with chlorhexidine gluconate, povidone-iodine, and chloroxylenol sponge-brushes (Aly and Maibach). 1988;16:173-7

Comparative effectiveness of chlorhexidine, povidone-iodine, and hexachlorophene on the bacteria of the perineum and groin of pregnant women (Vorherr et al). 1988;16:178-81 (Brief report)

Chloroxylenol

Comparative antibacterial efficacy of a 2-minute surgical scrub with chlorhexidine gluconate, povidone-iodine, and chloroxylenol sponge-brushes (Aly and Maibach). 1988;16:173-7

Clindamycin

Obesity and diabetes as risk factors for postoperative wound infections after cardiac surgery (Lilienfeld et al). 1988;16:3-6

***Clostridium* infections**

Yield of stool cultures, ova and parasite tests, and *Clostridium difficile* determinations in nosocomial diarrheas (Yannelli et al). 1988;16:246-9

Clothing

Surgical gowns and drapes as aseptic barriers (Belkin). 1988;16:14-8

Commentaries

Commentary. 1988;16:267-71

Communicable disease control

Infection control in correctional facilities: a new challenge (Chisolm). 1988;16:107-13

Protecting public health in U.S. jails: a call for the development of guidelines for managing communicable disease outbreaks (Safyer et al). 1988;16:267-71 (Commentary)

Conjunctivitis

CDC definitions for nosocomial infections, 1988 (Garner et al). 1988;16:128-40 (Special article)

Corrections

CDC definitions for nosocomial infections, 1988 (Garner et al) (1988;16:128-40). 1988;16:177

Nosocomial bacterial pneumonia: an overview (Pugliese and Lichtenberg) (1987;15:249-65). 1988;16:122

Costs and cost analysis

Annual syphilis serology testing in hospital employees: Is it beneficial? (Normand et al). 1988;16:30-3 (Brief report)

Cost of nosocomial infection: relative contributions of laboratory, antibiotic, and per diem costs in serious *Staphylococcus aureus* infections (Wakefield et al). 1988;16:185-92

Use and abuse of blood cultures: program to limit use (Gross et al). 1988;16:114-7

Use of a clinical decision rule to diagnose streptococcal pharyngitis in hospital employees (DeNeef). 1988;16:60-5

Cross infection

CDC definitions for nosocomial infections, 1988 (Garner et al). 1988;16:128-40 (Special article)

Cost of nosocomial infection: relative contributions of laboratory, antibiotic, and per diem costs in serious *Staphylococcus aureus* infections (Wakefield et al). 1988;16:185-92

Factors associated with cytomegalovirus excretion in hospitalized children (Brady et al). 1988;16:41-5

Hospital-acquired infections among surgical patients in Tikur Anbessa Hospital, Addis Ababa, Ethiopia (Habte-Gabr et al). 1988;16:7-13

Nosocomial enterococcal infections: association with use of third-generation cephalosporin antibiotics (Magnussen and Cave). 1988;16:241-5

Outbreak of methicillin-resistant *Staphylococcus aureus* on a surgical service (Haiduvén-Griffiths). 1988;16:123-7 (Brief report)

Risk factors associated with a cluster of urinary tract infections in a geriatric unit caused by *Klebsiella pneumoniae* resistant to multiple antibiotics (Sewell et al). 1988;16:66-71 (Brief report)

Risk factors for development of sepsis in a hospital outbreak of *Enterobacter aerogenes* (Meyers et al). 1988;16:118-22 (Brief report)

Cross infection—Cont'd

Use of a clinical decision rule to diagnose streptococcal pharyngitis in hospital employees (DeNeef). 1988;16:60-5

Varicella exposure in a neonatal intensive care unit: case report and control measures (Stover et al). 1988;16:167-72

Yield of stool cultures, ova and parasite tests, and *Clostridium difficile* determinations in nosocomial diarrheas (Yannelli et al). 1988;16:246-9

Cytomegaloviruses

Factors associated with cytomegalovirus excretion in hospitalized children (Brady et al). 1988;16:41-5

Infection surveillance in cardiac transplantation (Snyder et al). 1988;16:54-9

D

Day care centers; see Child day care centers

Diabetes mellitus

Obesity and diabetes as risk factors for postoperative wound infections after cardiac surgery (Lilienfeld et al). 1988;16:3-6

Dialysis

Cohort study of human immunodeficiency virus (HIV) antibody testing among patients receiving long-term dialysis at a university hospital (Johnston et al). 1988;16:235-40

Diarrhea

Yield of stool cultures, ova and parasite tests, and *Clostridium difficile* determinations in nosocomial diarrheas (Yannelli et al). 1988;16:246-9

Disinfectants

Germicidal test methods (Bowab and Oleson). 1988;16:182 (Letter)

Disinfection, hand; see Handwashing

Dressings; see Bandages

Drug resistance, microbial

Attempts to eradicate methicillin-resistant *Staphylococcus aureus* colonization with the use of trimethoprim-sulfamethoxazole, rifampin, and bacitracin (Roccaforte et al). 1988;16:141-6

Cost of nosocomial infection: relative contributions of laboratory, antibiotic, and per diem costs in serious *Staphylococcus aureus* infections (Wakefield et al). 1988;16:185-92

Outbreak of methicillin-resistant *Staphylococcus aureus* on a surgical service (Haiduvén-Griffiths). 1988;16:123-7 (Brief report)

Rifampin-resistant meningococcal infection in a patient given rifampin chemoprophylaxis (Berkey et al). 1988;16:250-3 (Brief report)

Risk factors associated with a cluster of urinary tract infections in a geriatric unit caused by *Klebsiella pneumoniae* resistant to multiple antibiotics (Sewell et al). 1988;16:66-71 (Brief report)
